How to Use Rotahr

A walkthrough guide for affiliates and partners

Everything you need to demo Rotahr with confidence

Rotahr is an all-in-one venue management app built for restaurants, bars, cafes and hotels. This guide walks through the core features so you can confidently demo the product to hospitality owners and managers.

Use your live demo login to follow along on each page as you read this guide.

What's covered in this guide:

- Dashboard - the daily at-a-glance overview
- Rota & Scheduling - build staff rotas with live labour cost tracking
- Clock In / Out - GPS-verified attendance with break entitlement reminders
- Bookings & Visual Floor Plan - manage reservations on a drag-and-drop table layout
- Bookkeeping - expenses, VAT/tax tracking, and receipt scanning
- HACCP - food safety compliance with reminders and audit-ready records
- Recipes - cost, GP%, and photo reference for every dish
- Payroll - gross pay summaries ready to export to BrightPay or CSV

The Dashboard gives an at-a-glance view of the day: today's bookings, shifts scheduled, active employees, and pending time-off requests.

Dashboard overview — Bloom Bistro demo account

Rota & Scheduling

Build weekly staff rotas by department. Live labour cost tracking shows spend as a percentage of revenue target, with Irish Working Time Act break warnings built in automatically.

The screenshot displays the Rotahr Rota & Scheduling interface. On the left is a dark sidebar with navigation options: Dashboard, Rota (selected), Time Off, Clock, Messages, Shift Swaps, Bookings, Menu & Planning, Bookkeeping, Employees, HACCP, Availability, and Payroll. The main content area is titled 'Rota' and shows the period '6 Jul - 12 Jul 2026' with '48/48 published'. Below this are tabs for 'Weekly' (selected), 'Daily', and 'All Departments'. Action buttons include 'Export', 'Copy prev week', 'Swap requests', and 'Templates'. A summary bar shows 'LABOUR COST €7,088.00' and 'OF REVENUE 32% Moderate', with a target of '€22,000'. Below this is an 'AI Labour Forecast' section and a 'Working Time Act 1997' warning with '48 breaks'. The main section is titled 'Bar 3 staff - 102h' and shows a weekly rota grid. The grid has columns for days of the week (Mon 6, Tue 7, Wed 8, Thu 9, Fri 10, Sat 11, Sun 12) and rows for employees. Rachel Moore is listed with a total of 38h. Her shifts are: Mon 6 (14:00-23:00 Bar Manager), Wed 8 (12:00-22:00 Bar Manager), Fri 10 (15:00-23:00 Bar Manager), and Sat 11 (12:00-23:00 Bar Manager). Other employees have empty slots marked with a '+'.

Weekly rota view with live labour cost tracking

Clock In / Out

Staff clock in and out with optional GPS geofencing to verify they're on-site. The system automatically tracks worked hours and reminds staff when they're entitled to a break under Irish employment law.

Clock in/out screen with geofencing status

Bookings & Visual Floor Plan

Manage table reservations in a simple list, or switch to the Visual Floor Plan to see and manage tables exactly as they're laid out in the venue - including round tables, booths, and bar/counter seating.

Visual Floor Plan — drag-and-drop table layout with live status

Log expenses, scan receipts with AI, and track VAT/tax automatically. The tax label adapts to the business's country (VAT, Sales Tax, or GST).

Bookkeeping — expenses and VAT summary

HACCP Compliance

Digital food safety checks replace paper logs - fridge/freezer temperatures, opening/closing checklists, and delivery checks. Set reminder schedules so staff are notified exactly when a check is due.

The screenshot displays the Rotahr HACCP Records dashboard. On the left is a dark sidebar with navigation links: Dashboard, Rota, Time Off, Clock, Messages, Shift Swaps, Bookings, Menu & Planning, Bookkeeping, Employees, HACCP (highlighted), AI Tools, and Account. Below these is a user profile for Sarah Connolly, Manager, with links for Get the App, Privacy, Terms, and Sign out. The main content area is titled 'HACCP Records' with the subtitle 'Paperless food safety compliance'. It features a top navigation bar with links to Dashboard, History, PDF, Scan Delivery Note, and Reminders. A central yellow box displays 'Today's compliance score' as 60%, indicating '3 of 5 required daily checks completed' on Wednesday, 8 July. Below this, a 'Temperature Control' section contains five cards: 'Fridge / Cold Room' (2x daily, 3 units, 1 logged today), 'Freezer' (Daily, 2 units, 1 logged today), 'Hot Holding' (Every 2hrs, 2 units), 'Cooking Temperature' (Per cook), and 'Cooling Record' (Per batch). A bottom right notification bubble prompts the user to 'Add to your home screen'.

Recipe Costing

Build recipes from stock items with live cost-per-portion and gross profit %.
Add a photo of the finished dish so kitchen staff always know how it should look before it goes out.

The screenshot displays the Rotahr Recipe Costing dashboard. On the left is a dark sidebar with navigation links: Dashboard, Rota, Time Off, Clock, Messages, Shift Swaps, Bookings, Menu & Planning, Bookkeeping, Employees, HACCP, Availability, Payroll, and a user profile for James Harrington (Admin). The main area is titled 'Recipe Costing' with a '+ New Recipe' button. It shows summary statistics: 3 Total recipes, Average GP% (empty), and 0 Low GP recipes. Below these are filter tabs for All, Starter, Main, Dessert, Drinks, Sides, and Other. Two recipe cards are visible. The first card, 'Bloom Brunch Board' (Main), includes a photo of a brunch board and lists ingredients: Sourdough, smashed avo, poached egg... Its cost/portion is €0.00 and sell price is €16.00. The second card, 'Wild Garlic Risotto' (Main), includes a photo of risotto and lists ingredients: Arborio Rice × 0.12 kg and Parmesan × 0.05 kg. Its cost/portion is €0.00 and sell price is €19.50. A bottom notification bar prompts the user to 'Add to your home screen'.

Ready to Refer

That's the full walkthrough. A few tips for demoing Rotahr to prospects:

- Lead with whatever pain point they mention first (rota admin, compliance, bookkeeping) rather than covering every feature
- The Visual Floor Plan and Recipe Photos are the newest, most visually impressive features - great for grabbing attention
- Always mention the 23% Irish VAT-inclusive pricing (or local currency equivalent) is transparent, no hidden fees
- Point them to a free trial signup through your referral link so you get credit for the referral
