

Rotahr Daily Competitor Outreach — Gemini Prompt

Run once per day. Copy the full block below and paste into Gemini.

ABOUT ME (context — read every time)

I'm Gabor, founder of **Rotahr** — an all-in-one hospitality management platform built specifically for small-to-mid hospitality businesses in Ireland and the UK.

What Rotahr does:

- Staff scheduling / rota builder (drag & drop, copy-week)
- Clock in/out with GPS
- Time-off & leave management
- Payroll cost tracking & P&L dashboard
- AI booking assistant
- Team messaging & menu specials board
- Bookkeeping: receipt scanning with AI auto-read, expense categories, VAT tracking, CSV export
- CRM: customer profiles auto-built from reservations, no-show tracking, email marketing
- Compliance tools: GDPR, Irish employment law, public holiday detection
- POS integration (Lightspeed, Square)
- Mobile app (iOS + Android) with push notifications

Pricing (inc. 23% Irish VAT):

- Starter: €59/mo (up to 10 staff)
- Pro: €119/mo (up to 30 staff)
- Enterprise: €215/mo (unlimited, multi-venue)
- **First month free trial on Starter and Pro**

Who we target: Owners, GMs, Operations Managers at restaurants, cafés, bars, hotels, pubs — especially those currently using or frustrated with: **Nory, Supy, Bizimply, Deputy, Rotaready, Fourth, RotaCloud, Planday, BrightHR.**

My email: sales@rotahr.com

Website: <https://rotahr.com>

TODAY'S RESEARCH TASK

Step 1 — Find reviews & complaints

Search the following sources for **recent reviews** (last 18 months) of these competitors:

- **Nory** — search: "Nory" reviews site:g2.com OR site:capterra.com OR site:getapp.com
- **Bizimply** — search: "Bizimply" reviews site:g2.com OR site:capterra.com OR site:getapp.com
- **Supy** — search: "Supy" reviews site:g2.com OR site:capterra.com OR site:getapp.com
- **Deputy** — search: "Deputy" scheduling reviews frustration OR "switched from" OR "cancelled" OR "too expensive"
- **RotaCloud** — search: "RotaCloud" reviews complaints OR "missing features" OR "poor support"

Also search Reddit:

- site:reddit.com "Bizimply" OR "Nory" OR "Supy" OR "RotaCloud" complaint OR "looking for alternative"

And LinkedIn:

- Search: "Operations Manager" OR "General Manager" restaurant Ireland OR "United Kingdom" "Bizimply" OR "Nory"

Step 2 — Extract named contacts

For each review or post you find, extract:

1. **Reviewer name or handle** (even partial — "James O." is fine)
2. **Their role** (GM, owner, ops manager, head chef, etc.)
3. **Business name** (if mentioned)
4. **Country** (Ireland / UK / other)
5. **Exact quote** from their review/post that reveals a pain point
6. **Pain point category:** pricing | missing features | poor support | too complex | not built for their size | AI issues | switching hassle

Skip anyone who is:

- An employee (sous chef, bartender, kitchen staff) — we want decision-makers
 - Multi-site enterprise (50+ staff) — not our core target
 - Outside Ireland/UK
-

Step 3 — Research each contact

For each decision-maker you found, try to find:

- Full name (search: "[partial name]" "[business name]" site:linkedin.com)
 - Business website
 - Email (check website contact page, or format as firstname@businessdomain.com)
 - LinkedIn URL
 - Any other context (news, expansions, awards, struggles — useful for personalisation)
-

Step 4 — Write the outreach email

For **each contact**, write a personalised cold email using this exact structure:

Subject line: Reference their specific frustration — NOT a generic pitch. Examples:

- *"Re: your Nory review — scheduling that actually works for a 12-person team"*
- *"You mentioned [competitor] doesn't work for single-site — we built Rotahr for exactly that"*
- *"[Business name] — saw your review of [competitor], wanted to reach out"*

Email body structure:

Hi [First Name],

[Opening — 1 sentence that shows you read their review. Quote or paraphrase their exact p

[Empathy line — 1 sentence. Acknowledge why that's genuinely frustrating for a business l

[Bridge — 1-2 sentences. Explain that Rotahr was built specifically to solve that. Be spe

[2-3 bullet points — only the features most relevant to their pain. Do NOT list all featu

[Soft CTA — low friction. Offer a free trial or a quick call. Never hard-sell.]

[Sign-off]

Gabor Nemeth

Founder, Rotahr

rotahr.com | sales@rotahr.com

Tone rules:

- Founder-personal, not corporate
- No buzzwords (no "streamline", "leverage", "empower", "cutting-edge")
- Short sentences
- Read like it was written by a person, not a marketing team
- Max 180 words in the body

Step 5 — Output format

Give me the results as a table first:

Name	Business	Role	Country	Email	Pain Point	Review Source	Quote Used
------	----------	------	---------	-------	------------	---------------	------------

Then below the table, paste each email in full, clearly labelled:

EMAIL 1 — [Name] / [Business]

Subject: [subject line]

[email body]

EMAIL 2 — [Name] / [Business]

...and so on.

Today's focus competitors (rotate daily):

Day	Primary Focus
Monday	Nory
Tuesday	Bizimply
Wednesday	Supy
Thursday	Deputy
Friday	RotaCloud + Planday

Today is: [FILL IN DAY] — focus on [FILL IN COMPETITOR]

IMPORTANT RULES FOR GEMINI

1. Do NOT make up contacts. Only use people you can actually find evidence of online.
2. If you can't find a real email, write [NEEDS EMAIL – check website] — don't guess.

3. If a reviewer is anonymous (no name), skip them unless you can identify the business.
4. Prioritise Ireland and UK contacts.
5. If you find a Reddit post or LinkedIn comment that reveals frustration but no contact info, still include the business name and note it as [PARTIAL LEAD – needs research] .
6. Quality over quantity — 3 real targeted emails beat 10 generic ones.
