Bait points, fly screens and proofing intact; contractor visit logged				
EQUIPMENT AND PROBES				
Fridge and freezer doors, seals and displays working				
Probes checked in iced water (about 0°C) and boiling water (about 100°C)				
ALLERGENS, STAFF AND SUPPLIERS				
Allergen matrix matches this week's menu, specials and suppliers				
New starters inducted; food safety training records up to date				
Illness and fitness-to-work reports handled before staff returned				
Rejected, short or late deliveries followed up with the supplier				
ACTIONS FOR NEXT WEEK — OWNER AND DUE DATE				
Action 1				
Action 2				
Action 3				

Tick OK or Issue on every row; every Issue needs a finding and action. A day with no record is a gap — write the reason or treat it as missed.

Set limits to your own HACCP plan and local rules. Start next week's review by checking these three actions were done.
